

Dear Naughty Dog,

Hello! My name is beatstar, I represent the Vidya Gaem Awards (/v/GAs). We are an award show that celebrates the best and worst of the video game industry. The /v/GAs have been making award shows for free since 2011, with our nominations and voting jury being entirely fan-voted. Our voting panel is comprised of users of 4chan's "/v/ - Video Games" board.

The Vidya Gaem Awards nominates and votes on games based on their calendar year, which is a shift from the usual convention of a rolling twelve-month period. We wanted you to know that over the years, games developed by your studio received nominations at the Vidya Gaem Awards. Here were your nominations!

Every year, our team links together to crowdsource a presentation honoring video games. No physical appearance or participation is required; instead we aim to use these awards as an opportunity to reflect on the state of the industry and the quality of its products. Some of our award categories are negative. We ask that if your game or company was nominated for any negative awards, to not take it as a personal attack, but as constructive criticism that may help improve the industry.

We thank you for taking the time to read this letter, and also for your contributions to the video game industry. We look forward to seeing your games featured in our award show soon.

Very truly yours,

beatstar
